

SK40004HH, SK30005VH SK40005VH

The **SK Series** is a truly versatile machine. It can be trailer or truck mounted to work for you, right where you need it. An efficient industrial duty electric-start Vanguard or Honda engine provides power to the pump and 12V diesel burner so no electrical supply is needed. The large, high capacity, 1/2" SCH 80 coil is stainless steel wrapped and heats the water up to 250°F. You will experience extended run times with the large 8 gallon gas and diesel tanks*. Industrial rated, direct or belt-drive triplex plunger pumps for superior performance and longevity. The unloader is remote mounted allowing for easy maintenance and has an external bypass loop to keep the pump running cool. Burst disc and pressure relief valve for operator safety. A full cage frame with lifting eye protects your machine from damage.

Requires Group 24 550 CCA battery, not included.

Dimensions: 43"L x 27"W x 45"H

Model SK40004HH

Direct Drive Pump

4000psi @ 3.5gpm

(276bar, 13liters)

389cc Honda engine, electric start

Model SK30005VH

Belt Drive Pump

3000psi @ 5.0gpm

(207bar, 19liters)

479cc Vanguard engine, electric start

Model SK40005VH

Belt Drive Pump

4000psi @ 4.8gpm

(276bar, 18liters)

570cc Vanguard engine, electric start

Standard Features:

- Commercial/Industrial, electric start gasoline engine (*diesel engine option available*)
- Triplex, ceramic plunger, direct or belt drive pumps
- Adjustable thermostat up to 250°F
- Heavy duty, insulated spray wand, trigger gun, quick connect nozzles and 50' hose

*SK40004HH has a 1.6 gallon gasoline tank mounted on the engine and dual 8 gallon diesel fuel tanks

Options...

Downstream injection kit (#AC340), Hour meter (AM512), 200 gal Transport trailer, 200 gallon Tank skid/reels, Tow & Stow™ tank skid transporter
